

AstroZura Astrology API Call List

Client reference for Astro calculators, reports, Panchang, horoscope, and shared helper APIs currently called by the main website.

Frontend API base URL

<https://astrozura.com/apigateway/index.php/api>

Backend upstream JSON provider

<https://json.astrologyapi.com/v1/{module}>

Backend upstream PDF provider

<https://pdf.astrologyapi.com/v1/{module}>

Important note: AstroZura public routes still use the internal prefix `/prokerala/` for compatibility, but the active backend provider service is AstrologyAPI.
